PREFACE.

THE CHETHAM SOCIETY was established in 1843 for the publication of Historical and Literary Remains connected with the Palatine Counties of Lancaster and Chester, and the first series of its publications consists of 114 volumes, and two volumes of Index. A General Index to the first thirty volumes was issued in 1863, and it was felt that the completion of the first series was the proper occasion for the preparation of an Index to the remaining volumes.

A full list of the publications of the CHETHAM SOCIETY appears in the Prospectus bound up with the present volume. Some of the volumes were originally issued without indexes. These have now been supplied, and in other cases supplementary indexes have been prepared.

The plan of the present General Index is simple. Like its predecessor, it is in effect a concordance of all the separate indexes. The references given are to the volume and not to the page. The reasons for this method were fully stated by its deviser, Mr. CHARLES SIMMS, the compiler of the first General Index, and the only deviation made from his plan is that in references to persons, the christian names have been set out instead of the surname only being given.
